

Anupam Saxena

Model Town, Jagatpura Road, Jaipur — +91 9084733140 — saxenaanupam326@gmail.com

SUMMARY

Final-year Computer Science undergraduate with strong foundations in software development, data structures & algorithms, and web technologies. Eager to learn new technologies, collaborate in team-oriented environments, and contribute to innovative projects. Skilled in Python, Java and Web Development, with a proven ability to adapt quickly, solve complex problems, and communicate effectively in both independent and collaborative settings.

EDUCATION

- **Birla Institute of Technology, Mesra** Nov 2022 – Jul 2026
Bachelor of Technology in Computer Science — CGPA: 7.0
- **S.R.N International Private School** 2021 – 2022
Senior Secondary (Class XII, CBSE)
- **G.D. Goenka Public School** 2019 – 2020
Secondary Education (Class X, CBSE)

RELEVANT COURSEWORK

Data Structures, Algorithms Analysis, Database Management, Computer Networks, Operating Systems, Artificial Intelligence, Machine Learning, Web Technologies

EXPERIENCE

- **Academic/Personal Projects** Ongoing
Independent Developer — Remote
- Worked on machine learning and web development projects using Python, Pandas, JavaScript, Github, VS Code.
- Built and deployed small-scale applications demonstrating practical implementation of coursework.

PROJECTS

Spam Email Classifier

- Developed an email spam detection model using Python.
- Applied preprocessing (cleaning, tokenization, stopwords removal) and TF-IDF vectorization.
- Trained ML models (Naïve Bayes, SVM) with high accuracy, evaluated with precision, recall, and F1-score.
- Optimized model pipeline to reduce training time by 20% while maintaining accuracy.
- Visualized results with matplotlib (confusion matrix, classification metrics).

Weather Web App

- Built a web app fetching real-time weather info using OpenWeatherMap API.
- Used JavaScript to display temperature, humidity, and wind speed.
- Styled interface with CSS for a responsive, clean design.
- Integrated geolocation to auto-detect city and display weather instantly.
- Implemented error handling for invalid city names and API failures.

TECHNICAL SKILLS

- **Languages:** Python, Java, C
- **Development Skills:** HTML, CSS, JavaScript
- **Libraries/Tools:** Pandas, Jupyter Notebook, Google Colab, GitHub, VS Code, **Google Workspace (Docs, Sheets, Slides)**
- **Concepts:** Data Structures & Algorithms, Software Development, Web Technologies

ACHIEVEMENTS/CERTIFICATIONS

- Secured 2nd place at International English Olympiad.
- Presented Research Paper, RTST 2024, MNIT Jaipur — “*Advancements in Electric Vehicles, Charging Systems, and Energy Storage: A Comparative Study of India’s Development*”, working collaboratively as part of a 4-member team.
- Achieved **Runner-up Rank 3** in the *20th International UCMAS Abacus and Mental Arithmetic Competition*.
- Achieved **Runner-up Rank 7** in the *9th State Level UCMAS Abacus and Mental Arithmetic Competition*.
- Certificate: Internet of Things (IoT) – NPTEL SWAYAM, IIT Kharagpur (Score: 81 Elite + Silver).
- Completed multiple hands-on projects in Machine Learning and Web Development.
